

CONTAINER SOLUTIONS
THAT WORK FOR YOUR BUSINESS.

- ***Retrieval Services***

If you have empty totes and or drums you would like picked up from your facility, contact IMACC today. IMACC will pick up any manufacturer or vendors containers within 24 hrs of your request.

- ***IBC Reconditioning***

For our customers who have their own IBCs, IMACC offers reconditioning services. With fully automated equipment and the know how to clean a wide variety of residues, empty containers are cleaned, repaired, and certified for reuse.

- ***Complete Recycling Services***

Once a container has reached the end of its lifecycle, IMACC is there to help. IMACC is a leading recycler of end of life containers keeping nearly 6 million pounds of plastic out of landfills annually.

IMACC Corporation is one of the nation's leading reconditioners and recyclers of Industrial Containers. Headquartered in Dalton Georgia with locations in Gastonia North Carolina and Jacksonville Florida, IMACC serves a wide customer base.

IMACC offers its customers a variety of options when it comes to their packaging needs. Our products include new, rebottled, and reconditioned IBCs available in both 275 and 330 gallon size with your choice of pallet and closures.

Poly Drums are available in both tight head and open head configurations and in a variety of sizes and colors including blue, black, and natural. All containers are supplied to meet exact customer specifications.

IMACC also provides its customers with an environmentally safe and secure method for their empty container pick up and recycling needs. When empty containers are picked up by IMACC or shipped to an IMACC facility, you have the peace of mind knowing your containers will be completely de-identified and processed by either reconditioning or recycling. IMACC can also provide its customers with a certificate of destruction if requested or required.
