

November 1, 2009

IMACC Corp., an IBC and poly drum reconditioner and plastic recycler in Dalton, Georgia and Gastonia, North Carolina is pleased to announce the opening of our new facility in Jacksonville, Florida. The plant will sell reconditioned IBCs, rebottled IBCs, poly drums and will receive used IBCs, poly drums, steel drums and other types of recyclable plastics. IMACC is a member of RIPA (the Reusable Industrial Packaging Association) and has been in the reconditioning and recycling business for 25 years under the same family ownership. We appreciate your interest and business and look forward to developing our new location in the Jacksonville area.
